**MK Brush Clinic**

**Mary Kay® Cheek Brush**

Domed natural bristles are ideal for sweeping color along cheekbones.

**How to Use**

Swift cheek color in a circular motion along the cheekbones, starting at the apples of the cheeks.

![Cheek Brush Diagram](image)

**Mary Kay® Powder Brush**

Bristles are designed to provide even application of loose and pressed powders to help "set" foundation and to apply bronzer to contour the face. Bigger brushes help with easy blending.

**How to Use**

Use to apply powder all over the face, starting in the T-zone and dusting outward to the edge of the face. You also can use this brush to apply powder or bronzer to the décolleté area.

**Mary Kay® Eye Color Brush**

Natural bristles help allow even color application and beautiful blending of Mary Kay® Mineral Eye Color.

**How to Use**

Apply Mary Kay® Mineral Eye Color first to the areas of the eyes you want to accentuate with the most color (lashlines or outer corners of eyes) and then blend into the larger eyelid areas. It's important to clean this brush often, since you may use multiple eye colors daily.

**MK Brush Clinic**

**Mary Kay® Eye Crease Brush**

Tapered natural bristles help provide precise application for depth and definition along eye creases. Great for contouring the eyelids and for creating smoky effects.

**How to Use**

Apply Mary Kay® Mineral Eye Color, starting in the outer creases, and sweep color in a back-and-forth motion. You also can use the tip of the brush to add brightening highlights to the inner corners of the eyes.

**Mary Kay® Eyeliner/Eyebrow Brush**

Firm, angled synthetic bristles of the eyeliner brush allow controlled definition of lashlines or brows and create a softer eyeliner application with mineral eye color. Stiff bristles of the eyebrow brush side help tame hairs and help to set eyebrows in place. Mini comb helps to remove mascara clumps from lashes.

**How to Use**

Apply Mary Kay® Mineral Eye Color along lashlines or as brow powder along natural brow lines with short, feathery strokes.

**Bag Bonus!**

The Mary Kay® Brush Collection comes in the custom Mary Kay® Cosmetic Organizer Bag so you can take your makeup brush collection and go! It’s even roomy enough to add your Mary Kay® compact, lip gloss, mascara, other makeup applicators and more!

**Why Invest in Brushes?**

"Every woman needs a brush set. Brushes are tools, and if you let them do their jobs, your whole makeup application will be easier."

- Luis Casco, Mary Kay Global Makeup Artist
MK Brush Clinic

Natural bristles grab onto Mary Kay® Mineral Powder Foundation for even distribution over the face.

How to Use

Lightly dip the Mary Kay® Mineral Foundation Brush into the powder and tap against the rim of the jar to remove any excess. Apply, starting in the center of the face and working outward in a circular motion. Blend well.

Why You Want It

“This is a really cool brush that I love. It’s so easy to apply your mineral powder foundation. You also can use this brush on its own to buff out makeup after you’ve applied it.”
– Luis Casco, Mary Kay Global Makeup Artist

This brush has synthetic bristles which provide smooth application for Mary Kay® liquid or cream foundations.

How to Use

Start at the center of your face, at the nose or forehead. Use broad, even strokes to apply out to hairline and chin to sweep and blend the makeup. Be sure to blend upward in the forehead area, so that by the time you get to the hairline, the foundation disappears for a more natural look. For the rest of the face, apply in a general downward motion to help any fine hairs lie flat.
MK Brush Clinic

Rounded synthetic bristles are designed to provide better coverage of cream-based color and are soft to the touch.

How to Use

2. With concealer, have customer apply a small amount of concealer to the back of her hand. Dip brush in product. Use the tip to cover tiny imperfections and use the flat end to help cover larger areas. Blend. And remember, a little concealer can go a long way.

Why You Want It

“The way that the brush is shaped, it allows you to go in these hard-to-reach areas and to get really close under your eyes. When using concealer with this brush, this allows you to get close to the eye so that you look like you actually slept for hours. Another way to use this brush is with cream eye color.”
– Luis Casco, Mary Kay Global Makeup Artist

†For hygienic reasons, it is recommended to dedicate one brush for use with cream eye color and one brush for use with concealer.

Michaela’s FAVORITE BRUSH EVER!!!!!

Short, dense bristles help allow you to smudge eyeliner or eye color perfectly along lashlines to soften the look or for a beautiful smoky effect.

How to Use

1. To blend eyeliner and create a smoky effect, blend along lashlines with a soft, back-and-forth motion.
2. To add drama, sweep eye color on eyelids with upward strokes, concentrating color near the lashlines. Blend with upward strokes until desired effect is achieved.
1. Spray brush cleaner onto bristles of brush until thoroughly dampened.
2. Sweep brush over a tissue to remove excess moisture and to wipe away makeup residue.
3. Reshape brush hairs with a clean tissue and lay flat to dry.
4. Allow brush to dry completely before reusing.

**Why You Want It**

"You really need a brush cleaner, and this one is easy to use. What's so awesome about it is that it dries really fast, and it smells wonderful."

– Luis Casco, Mary Kay Global Makeup Artist
