

Working Effectively Daily

Encouraged me, challenged me, inspired me, etc.

## **Daily**

I am willing to do what I have not been willing to do in order to meet my goal.

People don't decide their future, they decide habits that determine their future.

What I do **daily** is deciding what I will become permanently.

Nothing will ever dominate my life unless it happens **daily**.

I can't change my life until I change something that I am doing **daily**.

I can trace failure to something permitted to occur **daily**.

I can trace uncommon success to habits I created **daily**.

Habits are strengthened or changed by people I permit to be close to me **daily**.

What I look at **daily** decides where I will go.

I move toward the dominant picture in my mind **daily**.

I can change a failure routine and do a success routine **daily**.
