What's in my basic baggie?

Nail File (Deals or Dollar Tree): 5 files/\$1

Pumice Stone (Deals or Dollar Tree): 1 Stone makes 3 stones/\$1

Cotton pads

Razor (Deals or Dollar Tree): 10 Razors/\$1

Small Garbage Bags (Deals or Dollar Tree, pink 50 bags/\$1)

Decorative Baggies: 25/\$1

Before the party:

Make a Circle of 'U'-shape of chairs

Place a hand towel in each chair and put the baggie on the towel

Also put a pen, a customer profile card, a sales ticket, and a Look Book on each chair

Put a bucket (long-ways works best for space) in front of each chair

Fill the bottom of each bucket with Epsom salt (optional Epsom salt)

Add marbles and add I just dump some in, I don't measure) (optional marbles)

After everyone is seated:

Have them go ahead and open their baggie to get ready to begin

Have them fill out their customer profile card.

Take off polish an file toe nails while you're filling up the buckets with water

Take Water Pitchers filled with hot water (I fill up 2 at a time) and pour into each bucket

Have each person put their feet in the bucket after you add hot water

They can massage their feet with the marbles (they will LOVE this!) (optional)

Explain to them that Epsom salt will help loosen the dead skin from their heels (optional)

Once everyone is settled down from their excitement:

Go to each guest and squirt Extra Emollient Night Cream in their hands.

Have them massage that into their hands and then apply to feet

Put feet inside the garbage bag back into the bucket

Take water pitchers and fill them up again with very hot water

Add a small amount of water into each bucket on top of their feet (but warn them it's hot)

That creates a sauna effect and will aid in the removing of the dead skin from their feet

This would be a good time to play the 'left-right game' with a door prize to pass around & share about body care products.

After the game:

Have each guest take their feet out of the small garbage bag

Squirt Satin Hands Scrub in their hands and have them work that into their hands

Then have them apply it both feet.

Have them take the pumice stone and buff off dead skin

Have them take the child's tooth brush and clean their nail beds and under their nails (optional toothbrush)

Put feet back into bucket.

2-1 Body Wash & Shave or choice of body wash:

For fun do a leg check for the hairiest legs and give a prize! (optional)

Have guest apply body wash of your choice (optional to use a netted sponge)

Have guest lather up their legs and they can then test out the shaving ability with their razor

Moisturize and polish:

Have them rinse their legs and feet and towel dry.

Let them choose from your lotion selection (share about our subtle tan)

Apply nail polish

Now all your guests should have Satin Hands & Feet! =)
